## Voluntary Services to Hong Kong Blind Union

---

**Date: 24th May 2010**

**Location: Hong Kong Blind Union- Ho Man Tin Service Center**

**Type: Voluntary Works**

---

A team of volunteers from the Engineering Student Society, comprising computer engineering students, alumni and staff, participated in a computer repair project organized by the Hong Kong Blind Union in May. The project provides the union's low-income members with computer and Internet access by donating repaired second-hand computers to them. Volunteers fixed old computers and equipped them with screen readers and Braille input software so their new owners could use them with ease.
