
Technical Visit to Ocean Park (Grand Aquarium & Ocean Express)

Date: 15th September 2012

Location: Shenzhen Hi-Tech Industrial Park

Type: Technical visits

A group of 30 engineering students went to the Ocean Park on 22 February. In a guided tour, the Engineering staff of the Park introduced the students to Grand Aquarium's life support system and the facilities at Ocean Express, like its control room and machine room. At the latter attraction, they also attended a maintenance workshop and learned how engineering could widely apply to the infrastructure of an amusement park.
