
Technical Visit to ZCB

Date: 1st January 2015

Location: Zero Carbon Building, Kowloon Bay

Type: Technical visits

ZCB is the first Zero Carbon Building in Hong Kong. Developed by the Construction Industry Council in collaborating with the Hong Kong Government, it aims to showcase the state-of-the-art eco-building design and technologies to the construction industry locally and internationally and to raise community awareness of low carbon living in Hong Kong.

It is the first project completed under the Energizing Kowloon East initiative of the Hong Kong Government. Located at the heart of Kowloon Bay, the upcoming vibrant premier business district in Hong Kong, ZCB is a green oasis in a densely populated urban area. During the visits, students has a chance to learn the idea and technology of “zero carbon” and also the environmental protection intention behind them.
