
Exchange Tour to UIC (Zhuhai)

Date: 14th March 2016 – 15th March 2016

Location: United International College; Print-Rite

Type: Technical visits

United International College (UIC), situated in Zhuhai and jointly founded by Beijing Normal University and Hong Kong Baptist University (HKBU), is the first full-scale cooperation in higher education between the Mainland and Hong Kong. Its charter has been approved by the Ministry of Education with full support from local authorities.

Print-Rite Holdings Limited (“PRH”) is a holding company for operating companies that invest in, develop and manufacture products in the aftermarket printer consumable industry. PRH’s subsidiaries provide more than 4,000 products, including ribbons, inks, inkjet printer cartridges, laser printer cartridges, toners, OPC, rollers, and chips.

Our memorable 2 days – 1 nights trip started on 14 March 2016. A group of full-time students, professor and academic staff of The Opening University of Hong Kong participated in the Study Tour to Zhuhai. On the Day 1, we visited the United International College (UIC). The staff brought us to the library and the 3D-printing lab. The equipment could really widen our horizon while we are not having chance to know the School on the Mainland. On the Day 2, we were invited to the Print-Rite Company. The staff shared the success of Print-Rite and showed many 3D-product. We find the information useful as it may encourage us to work in China after graduation in near future.
