

## Technical Visit to MTR Kowloon Station

---

**Date:** 30th March 2016

**Location:** MTR Kowloon Station

**Type:** Technical Visit

---

Kowloon Station is situated in the Tsim Sha Tsui area at the southernmost tip of West Kowloon, and is ideally placed for major-residential, commercial, hotel, retail and parking facilities. The various facilities in the station form the ultra-modern epicentre which is Hong Kong most exciting urban development in recent years.

During the visit, the staff guided students to different place in the MTR station including the control room. Students had a chance to realize how MTR station work.
