

MakerBat X VolTra : Electric Vehicle Lab

Date : 18th July 2016 - 12th August 2016

Location : MakerBay EV Lab: MakerBay, Yau Tong, Kowloon

Type : Workshop

As for FIA's Formula Championship, the world's first fully-electric racing series, MakerBay hosted the workshop to train more designer to design their own electric vehicle. During creating the electric vehicle, student learnt different hardware and software skills such as design thinking, electric engineering, social R&D. It also focused on the team work. Student could show their creativity in engineering and design in this time.
