
Study Tour to Zhuhai

Date : 13th March 2017 - 15th March 2017

Location : United international College , ASM Pacific Technology and Print Rite Holding Limited

Type : Technical visits

Sponsor : Mainland Experience Scheme for Post - secondary Students

Hong Kong and Zhuhai work closely together in many aspects such as production and R&D research. In this tour, OUHK student could know more about the engineering and technology development in different field. In 3-D Printing Laboratory, student could appreciate the 3-D printer, virtual reality device and 3-D scanning technology. The director and research fellow also introduced their aims of each project clearly. It was a memorable experience and broadened their horizon.

After visiting the laboratory, OUHK student made a small conference to share the image about their school and exchange the knowledge and culture with the local student. Both of them could realize more different between two places.
