

Technical Visit to Hong Kong Observatory

Date: 6th January 2018

Location: Hong Kong Observatory, Kowloon

Type: Technical visits

The visit started with a seminar given by Ms. Queenie Lam, Senior Scientific Officer of HKO. She gave a general introduction of the mission, roles and operations of HKO. She then talked about tropical cyclone weather and forecasting, job positions in HKO, and other interesting facts. After the seminar, students had guided tour to the Exhibition Hall, Meteorological Garden, Central Forecasting Office, and TV Studio.
